LIFE

God gives us each but one short day
The time that we call life . . .
To waste or cherish as we will,
To spend in peace or strife;
One little day in which to,
Do else to leave undone,
The work he give us: We must leave
It all at set of sun -
But one brief day in which to learn
That we are not our own.
That that day's sweetest pleasure is
To hush another's moan -
That life of selfish living brings
No blessed eventide,
While life of loving service finds
Deep joy on every side -
But one brief day! Oh help me, Lord
To use it as I should!
Help me, for others; in that day
To do some little good
And when at twilight cool and dim,
I hear thy gentle call
Dear Lord, forgive me, if for thee
I've not used time and all.

American Best Quality Paints you're gonna love what happens

HINT:

PAINT REMOVAL

The last time I used a paint remover, I decided to think over every step before I started. I've torn down sets on while I did it, love that stuff.

- Remove hardware - Mask any areas to protected - Cover floors with several layers of newspaper - Read directions on label for proper use of remover. A heavy coat gives faster results than a light one - Apply remover only in a well ventilated area - Work out quickly. Too large an area causes drying of remover and hardening of the loosened area - Do not work in direct sunlight - When removing film, scrape in the same direction as the grain. To clean removed paint from grooves and crevices, use a narrow strip of rag or twine well twisted. Steel wool can also be used wrapped around twine. String wire across old can and use it to clean sludge from brush or knife. Clean wood thoroughly with alcohol type solvent.

A'fter your successful paint removal, see us for a complete selection of American Best Quality Varnishes and Stains.
